

METAL CARE GUIDE

CHROME

- Remove spills or spills promptly
- Regularly wipe down with a damp cloth
- For stubborn marks, use warm water and a mild detergent
- Dry thoroughly to prevent water spots and rust

STAINLESS STEEL

- Regularly dust and wipe down with a damp cloth
- Dry thoroughly to prevent water spots
- Wipe parallel to the steel “grain” direction
- Avoid harsh and abrasive chemicals as this will break down the protective coating and may cause scratching

ALUMINIUM

- Wipe up spills or stains immediately
- Clean regularly with a clean lint free cloth and warm water
- For tougher spills, use warm water and a mild detergent
- Keep dry to avoid water streaks

CAST-IRON

- Keep out of the elements to prevent rust
- Regularly wipe down with a damp cloth
- Avoid using harsh or abrasive cleaning chemicals
- Dry immediately after cleaning
